

Reclaimed Wood and Resin Coasters

Care Instructions

THANK YOU for purchasing one of our stunning and unique products. We hope you get many years of use and pleasure from it.

Your coasters are a unique product made from reclaimed wood and, where applicable, bio-resin.

Reclaimed wood has been cleaned and planed. If you've chosen a coloured set, a colourful stripe of bio-based Epoxxy resin has been added.

Each piece comes from a limited batch with unique grain and colours.

The coasters have been finished with a water based polyurethane coating to keep them water proof, easy to clean and heat resistant.

Care of Your Coasters

Simply wipe clean with a damp, not wet, cloth. Avoid using harsh cleaning products, but a little soap is ok. Immediately dry with a separate, soft, lint-free cloth. It's that simple.

Colour Change – All wood products will change in shade slightly as its exposed to sunlight. This is perfectly normal.

Handcrafted unique & original wood and resin creations
